THE UNITED STATES PUBLIC HEALTH SERVICE:
AN HISTORICAL BIBLIOGRAPHY OF SELECTED SOURCES

compiled by
Margaret Kaiser

NATIONAL LIBRARY OF MEDICINE

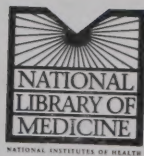

1989

U.S. Department of Health and Human Services
Public Health Service * National Institutes of Health

This publication was issued in conjunction with an exhibit: "The United States Public Health Service: The Last Hundred Years," commemorating the centennial of the PHS Commissioned Corps. The exhibit was prepared by Margaret Kaiser of the Library's History of Medicine Division.

The Bibliography is a selected list of secondary sources relating to the history of the United States Public Health Service. It was compiled from CATLINE (the Library's online book catalog), HISTLINE (the *Bibliography of the History of Medicine* online), and other sources consulted during the preparation of the exhibit. It includes monographs as well as journal articles. It is not an exhaustive list but rather a preliminary guide to the subject.
